

To whom it may concern: Before the DO NOT CALL law - we were bombarded with telemarketers calling during dinner, bedtime, sunday mornings... it got ridiculous... if I want to buy something I will check out an ad in the newspaper or look in the yellow pages - Send me an advertisement in the mail - if I am interested, I will read it... and to add insult to injury - once these people get you on the phone... they do not let you say good-bye. You have to be rude and just hang up on them because they do not take no " for an answer"... leave NJ law alone ! Thank you.
